We just looked at the —oneline flag to show one commit per line. That's great for getting an overview of the repository. But what if we want to dig in a little to see what file or files were changed by a commit?

QUESTION 1 OF 4 If you look in the repository at commit a3dc99a, it has the message "Center content on page". What file or files were changed in this commit? An HTML file A CSS file A JavaScript file An HTML and CSS file An HTML and JS file There's no way to know for sure

SUBMIT

git log --stat Intro

The <code>[git log]</code> command has a flag that can be used to display the files that have been changed in the commit, as well as the number of lines that have been added or deleted. The flag is <code>--stat</code> ("stat" is short for "statistics"):

```
$ git log --stat
```

Run this command and check out what it displays.

```

Two Terminal applications side-by-side. The left one shows the result of the <code>gitlog</code> command with all of the information while the right one shows the result of the <code>gitlog</code>—-stat command which lists the files that were changed as well as the number of added/removed lines.

Using what you've learned so far about <pre>git log</pre> and its flags, how many files were modified in the commit with the SHA <pre>[6f04ddd]?</pre>	
○ 1 file	
② 2 files	
O 9 files	
O 10 files	
SUBMIT	
QUESTION 3 OF 4 You did so well with the first one, so here's another! How many files were modified in the commit with the SHA 8d3ea36?	
O 1 file	
② 2 files	
O 3 files	
O 5 files	
SUBMIT	
QUESTION 4 OF 4 Now it's time to look at the other info the —-stat flag displays. How many lines of code were deleted in index.html in the commit with the SHA 8d3ea36?	
O 2 lines	
O 9 lines	
O 13 lines	
O 28 lines	
git logstat Recap	
o recap, thestat flag is used to alter how git log displays information:	
\$ git logstat	
his command: • displays the file(s) that have been modified	

- displays the number of lines that have been added/removed
- displays a summary line with the total number of modified files and lines that have been added/removed
